

No Child LEFT BEHIND

"The Educational Science Reform Act and "No Child Left Behind"(NCLB): Prescriptions for the Classroom?"

Tuesday

May 6

3:00-4:00 PM

220 Teacher Education Bldg

**Brian Zoellner
PhD Candidate
Curriculum & Instruction**

Light Refreshments Served

The scientifically based research requirements of NCLB and the Education Sciences Reform Act have been controversial within the educational research community. Brian Zoellner, PhD candidate, will shed light on this controversy in sharing his analysis of artifacts, such as press reports, hearings and federal documents, in an effort to understand the context, motivations, and rationales behind these policies.
